

Who Should Attend?

2-Hour Awareness Training

- Any employee who may encounter a hazardous material release
- Spill response team members
- Supervisory personnel

8-Hour Annual Refresher Training

- Any employee that has completed 24-hour training and needs the annual refresher

24-Hour Haz-Mat Technician Training

- Any employee in a facility that uses hazardous materials and may need to respond to an industrial spill or accident
- Plant safety personnel
- Supervisory personnel

WHERE ARE THE COURSES?

Employees can come to BroCo's Cleveland facility (conveniently located at E 185th street and I-90), or for groups, classes can be held at customer-preferred locations.

WHEN ARE COURSES SCHEDULED?

Classes are scheduled on an ongoing basis throughout the year. Contact us for course information.

WHAT MAKES BROCO CONSULTING SERVICES CLASSES SPECIAL?

All BroCo Consulting classes are developed to be *site specific*.

Before your employee attends a class, we will discuss your ongoing needs, specific chemical concerns, and emergency response plan.

Courses are customized to address your needs.

- Hands on Training
- Reference Materials
- Site Specific Information
- Comprehensive Testing to Ensure Competency in All Areas Covered

All attendees are required to pass a written test to prove competency in the covered areas and will receive a certificate verifying course completion.

Written confirmation will be sent to the employer and BroCo Consulting Services will archive all test results.

To pass the 24 Hour Training test, participants **MUST** be present for all three days.

BroCO CONSULTING SERVICES INC. also provides *Material Safety Data Sheet Maintenance Programs* and *EPA & OSHA Reporting Services*. Please call or inquire with your sales representative for more information.

All attendees will receive:

KEY TOPICS COVERED INCLUDE

- OSHA 29 CFR 1920.120 Requirements
- Health and Safety
- Use of PPE
- MSDS interpretation
- Chemical Terminology
- Emergency Response Procedures
